One platform. Every channel.

CHOOSE THE RIGHT MEDIUM, EVERY TIME

CHANNEL · SMS

98%

Open rate within 3 minutes

**Immediate.
Universal.**

The most direct channel for OTPs, fraud alerts, bill reminders and time-critical broadcasts — on every phone in Tanzania.

CHANNEL · EMAIL

A/B

Testing · deep analytics

Rich. Measurable.

Newsletters, nurture campaigns and transactional receipts with conversion tracking, segmentation and drag-and-drop authoring.

CHANNEL · AI CHATBOT

24/7

Always-on conversational AI

Conversational. At scale.

Never miss a query — day or night. NLP responses on Web, WhatsApp and SMS, with seamless handoff to a human agent when it matters.

Future-ready features

MACHINE LEARNING · BUILT-IN

AI · 01

Predictive segmentation

Machine learning clusters your audience by behaviour and likelihood to engage, so every send hits the right list.

AI · 02

Omnichannel history

SMS, email and chatbot conversations unified per contact — agents pick up where the customer left off.

AI · 03

Sentiment analysis

Detects frustration or intent in incoming messages and triggers the right escalation or campaign automatically.

AI · 04

Auto-response optimisation

Chatbot answers improve over time — the model learns from human-agent corrections without manual retraining.

NEXT STEP

Start the conversation.

Request a live demo of our messaging platform and AI chatbot — we'll send a sample broadcast to your own number and walk you through the dashboard.
