SERVICE CATALOGUE

Nine capabilities, one platform.

Everything below ships from a single device install and a single dashboard. Mix and match by vehicle, by depot or across your whole fleet and turn modules on as your operation grows.

01 TRACKING Live GPS Tracking & Route Playback Real-time position and full trip history. ■ Live map position ■ Speed & distance ■ iOS & Android app ■ Trip history & replay ■ Multi-vehicle view ■ Geofence alerts	02 FUEL Fuel Monitoring & Management Detect theft, control consumption. ■ Capacitive sensors ■ Theft & siphoning alerts ■ Cost-per-km report ■ Consumption vs. expected ■ Refuelling logs ■ ±1% accuracy	03 DRIVER Driver Behaviour & Identification Score, coach and hold drivers accountable. ■ RFID driver tags ■ Harsh acceleration ■ Driver league tables ■ Harsh braking ■ Speeding alerts ■ Per-driver scoring
04 ENGINE Engine Performance — CAN Bus Diagnostics straight from the vehicle. ■ RPM & temperature ■ Idle-time monitoring ■ Predictive alerts ■ DTC fault codes ■ Service intervals ■ J1939 / OBD-II	05 CARGO Cargo & Asset Monitoring Cold chain, doors, weight and trailers. ■ Cold-chain temp ■ Onboard weighing ■ Jamming resist ■ Door open / close ■ Trailer tracking ■ Tamper-evident	06 COMPLIANCE Automated LATRA & TRA Compliance Daily reporting with no manual work. ■ LATRA VTS transmission ■ TRA odometer & fuel ■ Timestamped audit trail ■ Daily compliance reports ■ Digital inspection logs ■ Wialon-compatible
07 REPORTING Reporting, Alerts & Integration Data out, on schedule, to your systems. ■ Scheduled reports ■ RESTful API ■ QuickBooks ■ Real-time alerts ■ SAP & Sage ■ OPES ERP native	08 VIDEO Dash-Cam, ADAS & DMS (optional) In-cab video evidence and driver alerts. ■ Dual-lens MDVR ■ Lane-departure warn ■ Phone-use detect ■ Forward-collision warn ■ Driver fatigue detect ■ Video on event	09 BREATHALYSER Breathalyser Integration (optional) Sobriety lock-out before ignition. ■ Pre-start breath test ■ Result logging ■ Per-driver record ■ Ignition interlock ■ Tamper detection ■ Manager dashboard

Hardware specifications

RUGGED · FIELD-PROVEN IN TZ

GPS accuracy	2.5 m CEP (open sky)	Operating temp.	-40 °C to +85 °C
Positioning	GPS / GLONASS / BDS	Tamper protection	Internal backup battery
Update interval	5 s – 5 min (configurable)	Fuel sensor	Capacitive (±1%)
Network	GSM / GPRS · 2G / 3G / 4G	CAN Bus	J1939 / OBD-II
Data storage	90-day on-device buffer	Camera	Dual-lens MDVR (optional)
Power input	9 – 100 V DC range	Breathalyser	Integrated (optional)

Installation & support

DAR · ARUSHA · MWANZA · NATIONWIDE

STEP 01 · ASSESS Fleet assessment Hardware specified to your vehicles, routes and operating conditions.	STEP 02 · INSTALL Certified installation 45–90 minutes per vehicle, by OPES-certified technicians.	STEP 03 · ONBOARD Platform & training Dashboard setup, geofences configured and team training delivered.
COVER 12-month warranty All telematics hardware covered for 12 months from installation.	SUPPORT 24/7 technical SLA Round-the-clock assistance with response-time service level agreement.	EXTEND Retainer packages Extended cover and managed-fleet retainers available on request.

Deployed across 24+ organisations

SECTORS

Mining Asset tracking across remote sites.	Banking Fleet security & courier routes.	Ports & Logistics Container & cargo tracking.	Energy & Utilities Remote asset monitoring.	NGOs Field-vehicle management.	Transport & Haulage Long-haul visibility & compliance.
